For weekend the rate is doubled

Prices are subject to change. 1 hour minimum when I show up at your place. I charge according to the town you live closest too. Most problems I fix in 1 hour or less. If you have a bigger problem if I can take your equipment with me I can fix it at \$35 an hour in my shop.

Photo shoots are a flat \$100 in any of the areas above. I use a DSLR Nikon 3500 and shoot in RAW for awesome photos. I then do post editing on my computer with Darktable to make each photo POP. Photo shoots that take longer than an hour will be more. {weddings, events, etc}

I also teach remotely online using Google Meet. I record the sessions so that you can watch it again later if you need to.
